

Graduation Rates for Athletes (Student Right to Know Act) –

Note: Athletes from the 2018-19 cohort were analyzed to determine 150% graduation. A cohort refers to students who entered as freshmen or transfer students during that specific academic year. In this calculation, students who transferred out and re-enrolled are also included.

Women's Basketball

Cohort 2018-19	Graduated, Re-enrolled or transferred out	150% Graduation
10	6	60%

Women's Cross Country

Cohort 2018-19	Graduated, Re-enrolled or transferred out	150% Graduation
1	1	100%

Men's Basketball

Cohort 2018-19	Graduated, Re-enrolled or transferred out	150% Graduation
7	3	43%

Note: Since the cohort size is small, data are not disaggregated by race/ethnicity; instead, aggregated totals are reported. The overall (aggregated) graduation rate, not disaggregated by sport, is **56%**.
